

ELECTRICAL APPRENTICESHIP PROGRAMS

An electrical apprenticeship is an occupational training program that combines on-the-job experience with classroom instruction in electrical theory, code and application designed to meet government and/or industry regulations. Casper College provides formalized training for the electrical apprenticeship programs shown below.

Wyoming Electrical Joint Apprenticeship and Training Council

Casper College partners with the Wyoming Electrical Joint Apprenticeship Training Council (JATC) to provide extensive classroom training (60 credit hours) designed to compliment on-the-job training received by electrical apprentices. Classes meet several times a year for a week at a time over the 4-year apprenticeship program duration. The combination of coursework and training prepare an apprentice electrician to take the journeyman electrician exam administered by the State of Wyoming Department of Fire Prevention and Electrical Safety.

The following classes are offered on a yearly basis for electrical apprentices working under the direction of the Wyoming Electrical JATC. Students must meet the requirements of Casper College and the Wyoming Electrical JATC.

ELAP 1510 Electrical I	5 credits
ELAP 1520 Electrical II	5 credits
