

SOCIOLOGY

Faculty

Hanson

Sociology is the scientific study of group life and the investigation of the social causes and consequences of human behavior. The discipline covers the full range of social behaviors; from interactions between individuals to relationships among entire societies. Sociological training imparts critical and analytical skills of considerable value and prepares students for informed participation in a complex world.

Associate of Arts Degree Sociology

(Recommended Curriculum)

General Education (Minimum 32 credits) Credits
General education coursework can be completed from within or outside of the major field of study.
