Office Hours: As posted on WebCT
Course Description: This non-clinical course introduces the student to the position of nursing in the contemporary health care scene. Nursing history, settings, roles, values, and ethical/legal dimensions are examined. The philosophy and conceptual framework of the Casper College nursing program are explored.
Co-requisites: Admission to nursing program. Concurrent enrollment: NRST 1615, HLTK 1000, HLTK 1220 (if not taken successfully previously).
Course Goal: To introduce the nursing student to the position of nursing in the contemporary health care scene.
Course Outcomes: Upon completion of this course, the student should be able to:
1. Examine contemporary nursing practice in light of its historical development.
2. Explain the concepts and relationships within the Casper College nursing program philosophy and conceptual framework.
3. Distinguish between the functions and responsibilities of the registered and practical nurse.
4. Compare and contrast the roles and scope of practice of the associate and baccalaureate-prepared nurse.
5. Describe the health care delivery team, its members, and their roles.
6. Define an appropriate legal and ethical framework for nursing practice.
Methodology: This course is designed for the self-directed learner; it is delivered by internet through WebCT. Students need to work independently through exercises in order to learn the material, and complete assignments within the prescribed timeframe. The student should expect to spend at least as much time studying and preparing for this course as s/he would for a campus-based course. In addition to email, communication between other students enrolled in the course and the instructor is encouraged via telephone and/or personal contact.
NOTE: This is an Internet-based class and computers malfunction. Be prepared. Don’t wait until the last minute to complete your assignments. YOU are responsible for making sure your work gets done on time and for scheduling yourself to keep pace. Internet courses are not easier than regular classes. I am here to help you understand the material and answer questions. If the information online and in the text is insufficient, please post questions in the discussion section of the course.

Evaluation Criteria: Students will complete a combination of assignments. The assignments are described in detail in the “Course Overview” section of the class. The course grade will be calculated as follows:
