Course Description:
This course examines the fundamental concepts and procedures used in payroll accounting. Usually payroll is the largest expense of most businesses and a continuing management challenge in terms of cost control. This course will explore payroll laws and recordkeeping requirements, running a payroll, payroll reporting / accounting procedures, and payroll systems and policies.

Statement of Prerequisites: ACCT 2010, or permission of the instructor.

Program goals: To give students interested in the field of accounting a fundamental understanding of the language of business (accounting). To prepare them for either an entry level position in the accounting field, or further studies at the four year level.
**Course Goals:** To give the student an understanding of the payroll process, terminology, required forms, and laws related to payroll.

**Course objectives:**
- To understand and effectively use the terminology related to payroll accounting.
- To learn how to prepare quarterly and annual reports related to payroll accounting.
- To prepare recordkeeping records for employees for payroll accounting.
- To understand how to prepare 941 taxes, SUTA quarterly taxes, FUTA annual taxes, and other reports.

- To record journal entries for payroll accounting using the proper debits, credits, accounts, and explanations.

**Methodology:** This course will be presented through lectures, illustrations, and student participation in discussions and problem solving.

**Chapter readings:** MUST be done ahead of time to allow for proper participation in class discussions

**Homework points:** The homework grade is based on work that is done online. Access to the homework website is available through use of the access code that accompanied the textbook. Homework assignments for each chapter will be set up online at www.cengage.com. See instructions at the end of the syllabus on how to register online for the homework. The homework closes at 2PM on the day of the test, and will no longer be available to the student. Any partially completed assignments will be automatically submitted at that time by the website.

**Tests:** There will be 50 points on each individual chapter test. NO MAKE-UP TESTS will be allowed because the tests are taken online and require a password. Plan accordingly. If you need to miss a test, arrangements must be made ahead of time. This will require special arrangements for the test which involves considerable time on the instructor's part. Therefore, this will be allowed only once during the semester. The second and subsequent tests missed will be recorded with a grade of zero in the grade book. No tests are dropped since all of this information is critical to complete the payroll process! Tests are at the beginning of the class period announced, after which the class will continue on to the next chapter.

**Participation:** Participation points will be awarded throughout the semester by means of hand-outs, discussions and or weekly quizzes. The quizzes can be True/False, Multiple Choice, or short answer questions or problems. You may use your notes or book for quizzes. However, they are individual assignments. We will utilize the CPS to record participation points as well as attendance. A handset will be assigned to you for the duration of the class this semester. DO NOT take the handset out of the room. The same handset is used for all several classes to avoid having students pay for the cost of the handset and online registration. If the handset is lost due to student negligence, that student will be asked to reimburse the division for the cost of the handset. Class attendance, participation quizzes and other participation will be recorded using the handsets. Students who are tardy or absent will lose points that cannot be made up individually.

**Practice set:** Chapter 7 includes a comprehensive practice set for the semester. You will be working on this on your own as it is considered a test. You will receive further instructions later in the semester.

**Website resources:** The textbook CengageNow website has several resources that will useful to the student the semester, such as interactive quizzes, powerpoints, etc. These are valuable learning tools.
and should be used as often as possible. These are available with the access code which comes with the book.
