Course Description: Advanced theory and machine operation for second year students.

Statement of Prerequisites: MCHT 1650 (Safety glasses are required)

Goal: The student will obtain proficiency in the operation of machine tools.

Outcomes:
   1. The student will obtain the ability to make quick and accurate decisions during the manufacture of products.
   2. Demonstrate effective oral and written communication
   3. Solve problems using critical thinking and creativity

Methodology: Four days of lab work with four hours reserved for lecture and written testing. Students will be evaluated on the quality of lab work completed and by 3 to 4 written tests and a series of practical tests to be completed in the machine shop. The quality of lab work must reflect the student’s ability make parts that all the dimensions are within the tolerances given on the blueprints. This will include surface finishes and also the cleanup and care of all equipment in the shop.

Evaluation Criteria: Points will be totaled for all course work and the final grade will be determined by a percentage of total points as follows:

   90% - above = A
   89% - 80% = B
   79% - 70% = C
   69% - 60% = D
   59% - below = F
