CASPER COLLEGE COURSE SYLLABUS
MLTK 2973 H1 Clinical Practicum: Immunohematology

Semester/Year: Spring/Fall 2016

Lecture Hours: 0  Clinical Lab Hours: 160  Credit Hours: 2

Class Time: TBA  Days: TBA  Room: May be located off campus at clinical affiliate.

Instructor’s Name: Dr. Audrey Hentzen

Instructor’s Contact Information: Office Phone: 268-2632  Email: ahentzen@caspercollege.edu
Cell 258-9109

Office Hours: By appointment and T, W, TH 11:00-12:00 and 3:15-4:15. Out of town travel may affect office hours please call (307) 258-9109. Office hours also available through teleconferencing.

Course Description:
This is an advanced course and clinical laboratory experience in the principles and procedures of immunohematology. It is an on-line supported, off-campus clinical laboratory experience taught by clinical faculty. Emphasis is on the application of knowledge and technical skills to clinical testing, methodology, instrumentation, quality control, correlation of laboratory data with pathophysiology, OSHA practices and medical laboratory technician professionalism.

Statement of Prerequisites:
MLTK 1500, 1600, 1700, 2500, 2600, 2650 and 2700
Access to computer technology and internet services.

Goal:
Students will have an increased understanding and working comprehension of the technical and procedural aspects of clinical laboratory testing. Students will demonstrate professional entry-level skills and competencies necessary for successful completion of the AS degree program and candidacy for certification examination.

Outcomes:
1. Evaluate patient specimen as acceptability for analyses.
2. Report patient results according to established department protocol.
3. Correlate patient results with patient’s condition.
4. Perform and interpret various laboratory procedures.
5. Operate clinical instruments, evaluate results, identify errors and resolve malfunctions.
6. Monitor and evaluate quality assurance data, identify errors and formulate plan for corrective action.
7. Critique patient results and select appropriate follow-up tests.
8. Professionally communicate laboratory information to patients, physicians and other authorized sources utilizing a variety of formats which may include, laboratory information systems computer technologies, telecommunications and direct patient conversation.
9. Develop and demonstrate professional attitudes, behaviors and practice.
10. Student will follow OSHA safety precautions while performing laboratory duties.

Casper College General Education Outcomes

11. Demonstrate effective oral and written communication (#1).
12. Solve problems using critical thinking and creativity (#3).
13. Demonstrate knowledge of diverse cultures and historical perspectives (#4).
14. Describe the value of personal, civic, and social responsibilities (#7).
15. Use quantitative analytical skills to evaluate and process numerical data (#8).

Methodology:
This course will be primarily delivered on-line, to those students who are completing their medical laboratory technician training at clinical affiliates. Students will interact through online discussions and exams, emails and written assignments that are submitted electronically. Students will spend 2-4 weeks in each department of the clinical laboratory, performing the duties and tasks associated with that discipline. Students will be in a laboratory setting, working one-on-one with an assigned clinical instructor. A Casper College clinical supervisor will oversee and coordinate the activities of the student during their training at the clinical affiliate through a clinical liaison. Communications will be maintained with both the student (on-line through Moodle) and the clinical liaison to monitor student progress and promote success.

Evaluation Criteria:

REQUIRED STUDENT TASK/ASSIGNMENTS

Exams
Post-tests will cover materials listed in defined learning segments or units outlined on the clinical rotation schedule. Post-tests will be completed at the end of each clinical rotation. Questions may cover materials presented in assigned readings, technical manuals or procedures. There will be a comprehensive, mock certification final. Post-tests and final must be completed by specified dates throughout the semester, and the final must be completed by the end of the course.

Laboratory Experience
Students will receive one on one bench-side tutorials from Clinical Adjunct Faculty while participating in the clinical laboratory experience. Students will be expected to perform a number of clinical laboratory procedures using patient samples, quality control materials, instrumentation and laboratory information system. Clinical laboratory performance will be evaluated by monitoring the number of completed tasks and progress made via on-line communications through Moodle and evaluation on a check list for the department.

Practical exam
Students will be given patient samples to be analyzed and the student will be expected to select the appropriate tests, evaluate patient results and assign a diagnosis.

Online computer testing
Students will purchase a subscription to LabCE.com with administration privileges assigned to the instructor. Students will be required to complete and obtain a 75% pass score on quizzes assigned to receive credit for the assignment. These quizzes will be monitored by the instructor to determine areas of remediation.

Professional evaluation
Students will be graded on attendance, punctuality, interpersonal relationships and their adherence to laboratory safety codes.

Pre-Lab and Lab Assignments
Each rotation, the student will be assigned study questions and case studies that must be completed as scheduled.
GRADING: NO LATE WORK WILL BE ACCEPTED OR GRADED. IF YOU HAVE A PROBLEM AND NEED AN EXTENSION TALK WITH THE INSTRUCTOR.

A = 92-100%  Final grades: Exams
B = 82-91%  Laboratory Experience
C = 70-81%  Practical Exam
D = 60-69%  Professionalism Evaluation
F = <60%  Pre-Lab and Lab Assign.

Required Text
Subscription to LabCE.com clinical laboratory science online testing, administered by Dr. Hentzen. You will be given your login and password. When you go to the website (https://www.labce.com/) you will be prompted to pay for this subscription. It is good for one year.
Student must have access to computer technology and internet services.

Class Policies: Last Date to Change to Audit Status or to Withdraw with a W Grade is the Casper College deadlines.
Exams must be completed without the use of textbooks, notes or assistance from classmates.
Once a deadline has passed, students will not be able to access exams or student assignments and student work will be not be accepted.

Student Rights and Responsibilities: Please refer to the Casper College Student Conduct and Judicial Code for information concerning your rights and responsibilities as a Casper College Student.

Chain of Command: If you have any problems with this class, you should first contact the instructor in order to solve the problem. If you are not satisfied with the solution offered by the instructor, you should then take your problem through the appropriate chain of command starting with the Department Head/Program Director, the Dean, and lastly the Interim Vice President for Academic Affairs.

Student complaints should be addressed through the following chain of command:
1) The instructor of your course (Dr. Hentzen)
2) MLT Program Director (Mr. Madsen)
3) Dean of Health Sciences (Dr. Tammy Frankland)
4) The Interim Vice President for Academic Affairs (Dr. Shawn Powell)

Academic Dishonesty: (Cheating & Plagiarism) Casper College demands intellectual honesty. Proven plagiarism or any form of dishonesty associated with the academic process can result in the offender failing the course in which the offense was committed or expulsion from school. See the Casper College Student Code of Conduct for more information on this topic.

Official Means of Communication: Casper College faculty and staff will employ the student's assigned Casper College email account as a primary method of communication. Students are responsible to check their account regularly.
ADA Accommodations Policy: If you need academic accommodations because of a disability, please inform me as soon as possible. See me privately after class, or during my office hours. To request academic accommodations, students must first consult with the college’s Disability Services Counselor located in the Gateway Building, Room 344, (307) 268-2557. The Disability Services Counselor is responsible for reviewing documentation provided by students requesting accommodations, determining eligibility for accommodations, and helping students request and use appropriate accommodations.

Calendar or schedule is individualized and will be given to each student who enters the 18 week clinical practicum courses. Please see course instructor for your personal schedule. Immunohematology clinical practicum is four weeks of the 18 weeks clinical practicum.

Course Content:

**Immunohematology/Blood Banking**

Blood Collection And Processing
A. Interviewing Donors And Selection Of Donors
B. Collect Blood
C. Type, Screen And Perform Serology Testing
D. Prepare Blood Components

Immunohematology Techniques
A. Preparation Of Red Blood Cell Suspensions
B. Reading And Grading Agglutination And Hemolysis
C. Compatibility Testing
   1. ABO Grouping
   2. Rh(D) Typing
   3. Du Testing
   4. ABO Discrepancy
   5. DAT
   6. Antibody Screen And Identification
   7. Elution
   8. Antigen Typing
   9. Typing And Screening
   10. Blood Selection
   11. Crossmatch
   12. Pediatric Infusion

Transfusion Practice
A. Processing Of Blood Shipments
B. Issuance Of Blood And Blood Components
C. Pool Platelets
D. Thawing And Pooling Of Cryoprecipitate
E. Washing Of Red Blood Cells
F. Transfusion Reaction

Obstetric Studies
A. Prenatal Workup
B. Antibody Titer
C. Cord Blood Workup
D. Rhogam Workup

Quality Assurance
A. Daily
B. Reagents
C. Storage and Return of Donor Units
