COURSE DESCRIPTION: This course includes the study of Oxyacetylene Welding, cutting and brazing, OAW, OAC and Shielded Metal Arc Welding (SMAW) processes.  

STATEMENT OF PREREQUISITES: None  

GOAL: The student will develop the necessary skills to produce quality welds on mild steel joints utilizing both processes.  

OUTCOMES: To provide the student with a thorough understanding of the OAW, OAC, and SMAW processes. Areas of instruction include welding safety, acetylene welding and cutting mild steel plate and pipe, fillet and groove welds on mild steel plate using OAW, braze welding, and SMAW, the AWS electrode classification system as it applies to all processes mentioned. Demonstrate effective oral and written communication, solve problems using critical thinking and creativity, use appropriate technology and information to conduct research.  

METHODOLOGY: One (1) lecture hour per week and a one (2) hour lab for 8 weeks, or can be structured to fit industry needs for specific apprenticeship programs.  

EVALUATION CRITERIA: Students will be evaluated on quizzes, tests, and lab projects. The quizzes and tests may be either written or practical. The final exam will be worth 30% of the final grade.

Attendance Policy: Attendance is of utmost importance. Unexcused absences in the excess of 4 will result in the loss of one letter grade. Due to the consideration of the instructor and students, you must be present at the designated starting class time or you will not be allowed to participate unless prior arrangements with the instructor have been made.  

Tool Use: Misuse of shop tools will result in the loss of tool privileges.  

REQUIRED TEXTS, READINGS, AND MATERIALS: Basic SMAW, Griffith, Rodan & Briggs; Basic Oxyacetylene Welding, Griffith, Rodan & Briggs  

CLASS POLICIES:
SAFETY: Personal and equipment safety standards will be strictly enforced. It is the individual’s responsibility to develop and use a safe work attitude.

STUDENT’S RIGHTS AND RESPONSIBILITIES: Please refer to the Casper College Student Conduct and Judicial Code for information concerning your rights and responsibilities as a Casper College Student.

Chain of Command: If you have any problems with this class, you should first contact the instructor in order to solve the problem. If you are not satisfied with the solution offered by the instructor, you should then take your problem through the appropriate chain of command starting with the Department Head/Program Director, the Academic Dean, and lastly the vice president for academic affairs.

Academic Dishonesty – Cheating and Plagiarism: Casper College demands intellectual honesty. Proven plagiarism or any form of dishonesty associated with the academic process can result in the offender failing the course in which the offense was committed or expulsion from school. See the Casper College Student Code of Conduct.

Official Means of Communication: Casper College faculty and staff will employ the student's assigned Casper College email account as a primary method of communication. Students are responsible to check their account regularly.

ADA Accommodations Policy: If you need academic accommodations because of a disability, please inform me as soon as possible. See me privately after class, or during my office hours. To request academic accommodations, students must first consult with the college’s Disability Services Counselor located in the Gateway Building, Room 344, (307) 268-2557, bheuer@caspercollege.edu. The Disability Services Counselor is responsible for reviewing documentation provided by students requesting accommodations, determining eligibility for accommodations, and helping students request and use appropriate accommodations.
