

Curriculum Guide Preview Dinosaurs Teaching Trunk

Outcome Assessment

Three pages of questions that can be used to test how much the students have learned from the trunk

Dinosaurs Color and Learn Guide

Each page has a dinosaur for students to color with facts about each dinosaur

The Science Series--Dinosaurs

Learn about what dinosaurs were, where they lived, the many changing ideas about them, and fun activities that include making your own fossils

Primary Theme Series--Dinosaurs

A great collection of various activities for the classroom that immerses the students into the world of dinosaurs with an emphasis on speaking, reading, and writing. This unit helps organize time, materials, and classroom space while providing fun thought provoking activities that all students will enjoy.

Dinosaurs and Other Prehistoric Animals--A Complete Thematic Unit

Activities geared towards reading, language, math, and science comprehension. Also has activities to help students explore their creativity and critical thinking.

Various Activities and Info

These include more coloring sheets, puzzles, games, Tate Museum Fact sheets, bulletin board decor, and magazine articles about dinosaurs.

In the back of the binder is a section for teachers to add their own resources to share with others.
