

Department of Theatre and Dance

AA: Theatre Performance

The goal of the Associate of Arts Degree in Theatre Performance is to provide academic and experiential training in acting and theatre performance which equals or exceeds what is offered in the first two years at baccalaureate degree granting institutions nationwide. By doing so, matriculating students are prepared to successfully transfer upon completing their A.A. Degree at Casper College.

Graduates of A. A. Degree in Theatre Performance at Casper College will achieve the following:

- Self-knowledge-awareness of your strengths, habitual patterns, areas in need of further development;
- Physical and vocal strength, and the ability to embody your creative choices;
- The ability to convincingly live in imagined circumstances, conveying a sense of emotional truth;
- Focused, concentrated, and active listening and the ability to give and take with fellow performers;
- Understanding of subtext and the importance of discovering the complexity of each character;
- Development of auditioning skills.

These goals are achieved through the vigorous course work and performance opportunities available in the Theatre and Dance Program.
