

Casper College Radiography Program

Program Effectiveness Data

The Casper College Radiography Program is accredited through the Joint Review Committee on Radiologic Technology (JRCERT). For more information on the Radiography Program accreditation go to jrcert.org. Program effectiveness is important to both the radiography faculty as well as the JRCERT and is monitored on a regular basis.

Five Year Credentialing Examination Pass Rate

Defined as: 5 Year ARRT (American Registry of Radiologic Technologists) Exam Pass Rate on First Attempt within 6 months. Figure reflects an average over a 5 year period of time of program pass rate.

2014-2018: 88% - Current Program Pass Rate on first attempt of ARRT Exam. Eighty-four graduates took the ARRT exam between years 2014-2018, and 74 passed on first attempt. Class of 2018 had a 90% Pass Rate: 20 graduates took the ARRT exam, 18 passed on first attempt.

Five Year Job Placement

This is defined as the number of graduates employed in the radiologic sciences within six months of graduation compared to the number of graduates actively seeking employment in the radiologic sciences. Casper College conducts a graduate survey one year after graduation.

2014-2018: 100% - 30 graduates responded to the graduate survey during this 5 year time period and actively sought employment. Of those, all 30 found employment in the Radiologic Sciences field within 6 months of graduation. 100% of graduates seeking employment in radiologic sciences who responded to the survey found employment in the field within six months of graduation.

Annual Completion Rate

Program completion rate is defined as the number of students who complete the program within 150% of the stated program length.

In **2018**, 20 students started the program and 20 students graduated. Program completion rate for 2018 is 100%.

Five Year Program Completion Rate

2014-2018- 88 students started the program, 86 graduated, therefore 97.7% of those students starting the program graduated.
