Roommate Contract

Purpose of the Contract

The purpose of this contract is to give residents sharing a room the opportunity to examine each other's personal living style and preferences, while ensuring that the rights of each individual resident are respected. Learning to accept each other's differences without infringing upon another's freedom is an invaluable part of your learning experience. As you discuss the various points of this contract, working toward achieving an agreement that is reasonable and is agreeable to all affected parties, please keep in mind that at no time are you permitted to supersede the current Housing Terms and Conditions, available on-line at

http://www.caspercollege.edu/students/whileyouhere/housing/housing_tac.html

At the beginning of the semester, we will require residents to set aside time to discuss the following questions with their roommate, and residents will be required at the beginning of their second semester to review and/or modify this contract. By dedicating adequate time to these questions now, you will hopefully avoid future conflicts. Take time to complete this contract and explain each of your responses. Be as honest and specific as possible.

Remember, communication is the key to the success of your roommate experience at Casper College!
