Casper College Radiography Program

Program Effectiveness Data

The Casper College Radiography Program is accredited through the Joint Review Committee on Radiologic Technology (JRCERT). For more information on the Radiography Program accreditation go to jrcert.org. Program effectiveness is important to both the radiography faculty as well as the JRCERT and is monitored on a regular basis.

Five Year Credentialing Examination Pass Rate

Defined as: 5 Year ARRT (American Registry of Radiologic Technologists) Exam Pass Rate on First Attempt within 6 months. Figure reflects an average over a 5 year period of time of program pass rate.

2015-2019:  88.8% - Current Program Pass Rate on first attempt of ARRT Exam. Eighty-one graduates took the ARRT exam between years 2015-2019, and 72 passed on first attempt. Class of 2019 had a 84.6% % Pass Rate: 13 graduates took the ARRT exam, 11 passed on first attempt.

Five Year Job Placement

Job Placement Rate (JPR) - is defined as the number of graduates employed in radiography within twelve months of graduation, compared to the number of graduates actively seeking employment in the radiologic sciences.

2015-2019:  100% - 28 graduates responded to the graduate survey during this 5 year time period and actively sought employment. Of those, all 28 found employment in the Radiologic Sciences field within 12 months of graduation. 100% of graduates actively seeking employment in radiologic sciences who responded to the survey found employment in the field within twelve months of graduation.

The JRCERT has defined “not actively seeking employment” as:
1) Graduate fails to communicate with program officials regarding employment status after multiple attempts OR
2) Graduate is unwilling to seek employment that requires relocation, OR
3) Graduate is unwilling to accept employment due to salary or hours, OR
4) Graduate is on active military duty, OR
5) Graduate is continuing education.

Annual Completion Rate

Annual Program Completion Rate (PCR) - is defined as the number of students who complete the program within 150% of the stated program length compared with the number of students who initially started with the cohort.
In 2019, 13 students started the program and 13 students graduated. Program completion rate for 2019 is 100%.

**Five Year Program Completion Rate**

2015-2019 - 84 students started the program, 83 graduated, therefore 98.8% of those students starting the program graduated.
